LETTER OF INVITATION
TO THE 16TH HUNGAROKORR
CORROSION PROTECTION EXHIBITION AND CONFERENCE
Budapest (Törökbálint), 15-17 September, 2015

The HUNGAROKORR exhibitions have a long history dating back to 1970 the year of the first international corrosion protection exhibition organized by the Hungarian Federation of Corrosion (HUNKOR). The exhibition was already organized 15 times, sometimes as part of the international chemistry exhibition CHEMEXPO. The usual exhibition area was around 1 000 m², with 250 exhibitors.

The exhibition was always linked with a conference, thus HUNGAROKORR also served as a bridge between science and industry. Formerly HUNGAROKORR was organized by the National Development Agency (OMFB), partner companies, the Scientific Society for Mechanical Engineering (GTE), and the Hungarian Chemical Society (MKE), and lately by HUNKOR.

We cordially invite you to participate in HUNGAROKORR 2015, in the year when the international community will agree on the future global framework for poverty eradication and sustainable development. The year 2015 is the European Year for Development in the European Union. Accordingly the aims of the 16th HUNGAROKORR are the ecological Hungary, sustainable development, European trends and Hungarian results in corrosion protection.

Venue: **Hungarian-Slovakian Business and Information Centre**

2045 **Törökbálint**, Kazinczy str. 124/b (corner of Órház street)

Telephone: +36-23-517 985

(Törökbálint is a suburban town of Budapest at 16 km distance)

Date: 15-17 September 2015

Accommodations: ABACUS Business & Wellness Hotel****+

2053. **Herceghalom**, Gesztenyés street 3., Telephone: +36-23-532 360

Hotel*** St. László Lovagvár

2045 **Törökbálint**, Határ street 26,

Technical Program: Plant visit to the oil refinery of MOL Group (on 17 September)

2443 Százhalombatta, Olajmunkás street 2., Telephone: +36-23-552 069

Language of conference: English, with Hungarian following translation

Language of presentation: Hungarian, with English following translation

Free parking at the conference site, and supporting transfer from the hotels
